

U.S. ECONOMIC DEVELOPMENT ADMINISTRATION

SECTION FOUR - APPENDIX (PDF VERSION)

A model of smart, lean government, EDA does more while spending less—every dollar the agency invests leverages another \$6.90 in private/public investment.

Appendix

STATE BY STATE INVESTMENT INFORMATION

- Summary Table of EDA Approved Investments by State by Program FY 201051- 52
- Listing of EDA Approved Investments by State and Program FY 2010 53-71
- Community Trade Adjustment Assistance Investments by State.....72-73
- Disaster Supplemental Investments by State.....74-77

EDA REAUTHORIZATION ACT OF 2004 REPORTING REQUIREMENTS

- Projected Private Sector Investment Ratio for FY 2010..... 79-83
- EDA Leveraging Goals for Private Sector in FY 2010.....84
- Realized Private Sector Investment Ratio for FY 2001, 2004, and 2007..... 85-97

Appendix

EDA REAUTHORIZATION ACT OF 2004 REPORTING REQUIREMENTS

*Projected Private Sector Investment Ratio for Construction and Revolving Loan Fund Investments by State**

Section 603 (b) (1) of the Public Works and Economic Development Act of 1965, as amended (42 U.S.C. § 3213), requires EDA to list in its annual report all grant recipients by state, including the projected private sector dollar to Federal dollar investment ratio for each grant recipient. The following state-by-state investment information is provided to respond to those requirements.

* This data does not include Department of Defense reimbursable investments or disaster supplemental investments.

**PROJECTED PRIVATE SECTOR INVESTMENT RATIO FOR FY 2010**

EDA LEVERAGING GOALS FOR PRIVATE SECTOR

Section 603 (b) (2) of the Public Works and Economic Development Act of 1965, as amended (42 U.S.C. § 3213), requires EDA to include in its annual report to Congress a discussion of private sector leveraging goals set for investments awarded to (a) rural* and urban economically distressed areas; and (b) highly distressed areas.**

The following information is provided to respond to those requirements.***

(a) EDA's private sector leveraging goal with respect to grants awarded to rural and urban economically distressed areas:

Since 2004, EDA has shown sound results in attracting private capital investment in both rural and urban distressed communities. In FY 2010, EDA invested 54.4 percent of its infrastructure and RLF funds in rural areas which grantees expect will leverage \$4.1 billion in private investment; 45.6 percent of the funds were invested in urban areas which grantees expect will leverage \$1.8 billion in private investments.

(b) EDA's private sector leveraging goal with respect to grants awarded to highly distressed areas:

EDA recognizes the importance of private capital investment for successful economic development and recognizes the importance of maintaining significant flexibility to assist those communities that are taking the first steps toward economic growth. Therefore, EDA often makes prudent investments in areas where leverage ratios are lowest.

In FY 2010, EDA invested 44.6 percent of all its funds in highly distressed areas, and the infrastructure and RLF funds invested in highly distressed areas are projected to generate \$1.85 billion in private investment, based on recipient-estimated projections.

* Rural includes investments made to Indian tribes.

** For an area to qualify as being highly distressed, one of the following criteria must be met: (a) a 24 month unemployment rate of at least 200 percent of the national average, (b) per capita income not more than 60 percent of the national average or (c) a catastrophic disaster.

*** U.S. Department of Defense reimbursable investments, disaster supplemental investments, and ARRA investments are not included in these calculations.

Appendix

REALIZED PRIVATE SECTOR DOLLAR TO FEDERAL DOLLAR INVESTMENT RATIO BY STATE

Section 603 (b)(3) of the Public Works and Economic Development Act of 1965, as amended (42 U.S.C. § 3213), requires EDA to list in its annual report to Congress the realized private sector dollar to Federal dollar investment ratio for each project after the completion of a project. The Federal dollar amount quoted in the following listing provides only EDA investment dollars for FY 2001 and FY 2004 construction and revolving loan fund investments.*

To implement the Government Performance and Results Act of 1993, EDA collects data on realized private sector capital leveraged as a result of EDA's investment in three-year increments after the date of award. Therefore, for investments awarded in 2001, data were first collected during FY 2004, again in FY 2007, with a full report completed in FY 2010. Likewise, for investments awarded in FY 2007, data were collected during FY 2010, and will also be collected in 2013 and 2016. EDA anticipates that projected private sector capital, which is leveraged by the investment award, may only be fully realized as much as nine years after the award date as many EDA investments have four- or five-year construction horizons.

The following chart provides both recipient-projected private sector investment and private sector investment ratios reported for EDA investments approved in FY 2001 and 2004. The chart also provides recipient-reported realized private sector investment and private sector investment ratios reported for EDA investments approved in FY 2007 as of September 30, 2010, with the qualification that construction on all projects listed has not necessarily been completed. In future annual reports, EDA will report realized private sector investment in three-year increments as data become available.

*This data does not include Department of Defense reimbursable investments or disaster supplemental investments.

**REALIZED PRIVATE SECTOR INVESTMENT REPORTED FOR FY 2001 APPROVALS**
