Shawn

I have done some research on the fidelity bonding issue. The bonding requirement appears in 2 CFR 200.304, which is part of the **Uniform Administrative Requirements, Cost Principals and Audit Requirements** as indicated on the lower half of your Financial Assistance Award document (CD-450). I have attached a copy of this document for your reference.

I have also attached a copy of the CFR for your reference.

Please call me if you have any questions.

Thank you Brian. Did you get any additional information regarding the bonding?

Best,

Great. The only issue I know of is that the EDA Construction Sign has the previous president's name on it. We are awaiting direction from our HQ folks on how the sign is supposed to change.

I'll keep you posted on this issue…..

Hi Brian,

I had listened to your voicemail and just received this email. It appears all the files have made it to me and I have them saved to my hard drive. I will begin to look through the files per your instructions below and I will reach out with any questions.

Thank you,

SHAWN JENSEN

Shawn

I am forwarding to your attention a compact disc with guidance information for use in administering your EDA grant. While this CD is intended for rather generic EDA-funded construction projects, you will find that much of the guidance included herein will apply to your project.

Please "unzip" the attached file to a location on your hard-drive (or another location). The total file is approximately 21 MB when unzipped. Then, please read the document "ABOUT K-PAI.pdf" in the file labeled "7-ABOUT K-PAI" and proceed to the "Main Page.pdf".

If you should have any questions, please call or email me.
