Yes, I am available at 2pm both Thursday and Friday. Which day did you prefer? I can set up a call in line if necessary, otherwise you may call my direct number you listed below.

Thank you,
Shawn

SHAWN JENSEN
Manager of Government Funding and Program Partnerships

Shawn,

Thank you, are you able to talk to us at 2 pm? Shannon and I will call you to go over environmental related issues that are still outstanding. Can we call you at (424) 210-4326?
Wil, please let me know if you plan to participate also. I will request a conference line if you can participate.

Thanks,

Shalini

It sounds like some are addressed (e.g., no dredging as part of this project) and you were still getting information on other things (e.g., did the Corps do a biological consultation with the US Fish and Wildlife Service and National Marine Fisheries Service). I might have missed it too, but what we will want to see is those items addressed in writing and copies of documents such as the Corps permit.

It appears that the environmental updates you may have been working through are not included in the packet I got, however. If I missed something, apologies, but if possible, I would like to talk to you this afternoon, to see where we are on the environmental requests and how much additional time you may need.

Shawn,

Sorry, once again, I wanted to iterate that we need a strategy from AltaSea that speaks to how it will include the low-income, minority population located in the neighboring region, such as San Pedro, for employment purposes. I am not sure if this thought was conveyed clearly in our letter to you, or in my last email.

Thank you Shalini, that does help. My conversations with Shannon have been good and we both feel that the project is on track. We have been through the list of environmental concerns and she has not requested any additional information at this time but I do have instructions of what will need to be completed.

My question is regarding what you need "delivered" by 6/3. I have all the original signed EDA applications from AltaSea and the Port that you requested, the signed ED 900Bs and other documented support of AltaSea as well as a letter from AltaSea for matching funds. Is there anything else that needs to be sent to you?

Thank you,
Shawn

Shawn,

I am available for a discussion about any outstanding items this afternoon. Please feel free to ring me, or email may work better, then, I can methodically respond. Note that whatever Shannon said on environmental related stuff is the final word ☺ - i.e. if my letter conveyed some other message, I would defer to your conversation with Shannon, she is the final reviewer for environmental issues. I hope this helps.

Sincerely,
