Tech Hubs Designee[4]	1

EXAMPLE PROJECT

In FY2023, **EDA awarded $1,000,000 in Public Works funds to support Southeastern Oklahoma State University (SOSU)** with renovating an existing building located at the Durant Regional Airport, which will result in an Aerospace Technology Center. This training center will improve existing training capacities, design new programs, and develop partnerships that will strengthen the region's aerospace workforce. Once completed, SOSU will create employment opportunities for Southern Oklahoma residents and provide training skills to help boost economic stability throughout the region.

"In the past 15 years, the District has assisted the region in securing EDA grants of over $6.5 million that have or will result in the creation of over 800 jobs and attraction of $85 million in private investment."
Joe David McReynolds, President, Southern Oklahoma Development Association Board of Directors

The EDA data provided herein should be viewed as a snapshot of the data available at the time of the data request and are subject to any changes, or updates as reflected within future reports and data requests. This includes, but is not limited to, revisions to the number, dollar amount, program classification and estimated impacts of specific grant awards.

All data as of 2/23/2024; State totals are based on the location of the grantee; All dollar amounts rounded.

1 Applicant estimated at the time of award.
2 Projects may be counted multiple times across themes if they align to multiple themes.
3 Projects are identified as benefitting communities highly dependent on the coal industry, including those funded via the Assistance to Coal Communities program.
4 Tech Hubs designees are also eligible to apply for EDA's Tech Hubs Phase 2 Notice of Funding Opportunity.
